Answer: A

Section C: Introduction to Pāṇini (Grammar)

11. Pāṇini is best known as:

- A. A Vedic poet
- B. A philosopher
- C. A grammarian
- D. A logician

Answer: C

12. The famous grammatical text written by Pāṇini is:

- A. Mahābhāṣya
- B. Nirukta
- C. Aṣṭādhyāyī
- D. Vākyapadīya

Answer: C

13. The Aṣṭādhyāyī consists of:

- A. 4 chapters
- B. 6 chapters
- C. 8 chapters
- D. 10 chapters

Answer: C

14. The grammatical rules of Pāṇini are mainly written in:

- A. Prose
- B. Verse
- C. Sūtra form
- D. Dialogue form

Answer: C

15. Pāṇini's grammar is considered unique because it is:

- A. Narrative
- B. Descriptive only
- C. Scientific and systematic
- D. Mythological

Answer: C

Section D: Higher-Order / Conceptual MCQs (NEP Pattern)

16. Pāṇini's contribution is important because it:

- A. Simplified spoken Sanskrit
- B. Standardized Sanskrit grammar
- C. Replaced Vedic language
- D. Eliminated dialects

Answer: B

17. The tradition of Sanskrit grammar after Pāṇini was continued by:

- A. Bhartṛhari and Patañjali
- B. Kālidāsa and Bhāsa
- C. Charaka and Suśruta
- D. Kauṭilya and Manu

Answer: A

18. Which quality of Sanskrit grammar makes it suitable for scientific texts?

- A. Poetic nature
- B. Flexibility of rules
- C. Precision and rule-based structure
- D. Emotional expression

Answer: C

19. In NEP context, Sanskrit is studied mainly to:

- A. Promote ritual practices
- B. Preserve cultural and intellectual heritage

- A. Performing yajñas
- B. Protecting dharma and the state
- C. Renunciation
- D. Teaching philosophy

Correct Answer: B

14. Which of the following is a core concept in the Arthaśāstra?

- A. Mokṣa
- B. Rasa
- C. Daṇḍanīti
- D. Bhakti

Correct Answer: C

15. The Arthaśāstra reflects which aspect of Indian knowledge tradition?

- A. Metaphysical speculation only
- B. Practical governance and administration
- C. Pure theology
- D. Literary aesthetics

Correct Answer: B

1. The classical texts of Ayurveda are collectively known as:

- A. Smṛiti Grantha
- B. Darśana Grantha
- C. **Bṛihatrayi and Laghutrayi**
- D. Vedic Samhita

Correct Answer: C

2. Which of the following texts is included in Bṛihatrayi?

- A. Sharangadhara Samhita
- B. Bhava Prakasha
- C. **Charaka Samhita**
- D. Madhava Nidana

Correct Answer: C

3. The Charaka Samhita mainly deals with:

- A. Surgery
- B. Toxicology
- C. **Kayachikitsa (Internal Medicine)**
- D. Rasashastra

Correct Answer: C

4. The original composer of Charaka Samhita was:

- A. Charaka
- B. **Agnivesha**
- C. Dhanvantari
- D. Kashyapa

Correct Answer: B

5. Charaka Samhita is divided into how many Sthanas?

- A. 6
- B. 7
- C. **8**
- D. 9

Correct Answer: C

6. Which Sthana of Charaka Samhita deals with basic principles of Ayurveda?

- A. Sharira Sthana
- B. **Sutra Sthana**
- C. Chikitsa Sthana
- D. Indriya Sthana

Correct Answer: B

7. Sushruta Samhita is primarily associated with:

- A. Medicine
- B. Pediatrics
- C. **Surgery (Shalya Tantra)**
- D. Psychiatry

Correct Answer: C

8. The author of Sushruta Samhita is:

- A. Charaka
- B. Atreya
- C. **Sushruta**
- D. Vagbhata

Correct Answer: C

9. Which of the following surgical techniques is first described in Sushruta Samhita?

- A. Blood transfusion
- B. **Plastic surgery (Rhinoplasty)**
- C. Bone marrow transplant
- D. Endoscopy

Correct Answer: B

10. The total number of chapters in Sushruta Samhita is:

- A. 120
- B. **186**
- C. 150
- D. 200

Correct Answer: B

11. Ashtanga Hridaya was composed by:

- A. Sushruta
- B. Charaka
- C. **Vagbhata**
- D. Nagarjuna

Correct Answer: C

12. Ashtanga Hridaya is written mainly in:

- A. Prose
- B. **Mixed prose and verse**

C. Poetic verse (Shloka form)

D. Sutra style

Correct Answer: C

13. Which text is considered simpler and more student-friendly?

A. Charaka Samhita

B. Sushruta Samhita

C. **Ashtanga Hridaya**

D. Kashyapa Samhita

Correct Answer: C

14. The term “Ashtanga” in Ayurveda refers to:

A. Eight metals

B. Eight doshas

C. **Eight branches of Ayurveda**

D. Eight Samhitas

Correct Answer: C

15. Which is NOT one of the eight branches of Ayurveda?

A. Kaumarbhritya

B. Shalakya

C. **Homeopathy**

D. Rasayana

Correct Answer: C

16. Kashyapa Samhita mainly deals with:

A. Surgery

B. Geriatrics

C. **Pediatrics and obstetrics**

D. Toxicology

Correct Answer: C

17. The Laghutrayi includes all EXCEPT:

- A. Madhava Nidana
- B. Sharangadhara Samhita
- C. Bhava Prakasha
- D. **Charaka Samhita**

Correct Answer: D

18. Madhava Nidana is mainly concerned with:

- A. Treatment
- B. Surgery
- C. **Diagnosis of diseases**
- D. Rasayana therapy

Correct Answer: C

19. Bhava Prakasha was authored by:

- A. Vagbhata
- B. **Bhavamishra**
- C. Nagarjuna
- D. Charaka

Correct Answer: B

20. According to BHU NEP syllabus, the study of classical texts is important because it:

- A. Promotes memorization only
- B. Focuses only on herbs
- C. **Provides fundamental principles for health, disease, and management**
- D. Is only of historical value

Correct Answer: C

21. Which classical text emphasizes social health and ethical conduct?

- A. Sushruta Samhita
- B. **Charaka Samhita**
- C. Sharangadhara Samhita
- D. Rasaratna Samuchchaya

Correct Answer: B

22. The philosophical foundation of Ayurvedic texts is closely related to:

- A. Buddhism only
- B. Jainism only
- C. **Indian Darshanas like Sankhya and Nyaya**
- D. Western philosophy

Correct Answer: C

23. Ayurveda considers health as:

- A. Absence of disease
- B. Physical fitness only
- C. **Balance of Dosha, Dhatu, Mala, and Agni**
- D. Mental happiness only

Correct Answer: C

24. Which text integrates theory and clinical practice effectively?

- A. Madhava Nidana
- B. **Ashtanga Hridaya**
- C. Bhava Prakasha
- D. Kashyapa Samhita

Correct Answer: B

25. Study of classical Ayurvedic texts under NEP aims at:

- A. Rote learning
- B. Examination marks only
- C. **Holistic understanding of health, lifestyle, and ethics**
- D. Learning Sanskrit grammar only

Correct Answer: C

MCQs: Charaka Saṁhitā & Social Management (BHU – NEP)

Section A: Fundamentals of Charaka Saṁhitā

1. Charaka Saṁhitā primarily belongs to which branch of Ayurveda?

- A. Śalya Tantra
- B. Kaumārbhṛtya
- C. Kāya Cikitsā
- D. Śālākya Tantra

Answer: C

2. Who is traditionally regarded as the redactor of Charaka Saṁhitā?

- A. Suśruta
- B. Vāgbhaṭa
- C. Charaka
- D. Dhanvantari

Answer: C

3. Charaka Saṁhitā is mainly based on the teachings of:

- A. Punarvasu Ātreya
- B. Kaśyapa
- C. Nimi
- D. Bharadvāja

Answer: A

4. The central objective of Charaka Saṁhitā is to:

- A. Perform surgical procedures
- B. Preserve and promote health and cure disease

- A. Increased medical costs
- B. Sustainable social development
- C. Individualism only
- D. Technological dependence

Answer: B

18. Which value promoted by Charaka Saṁhitā is essential for social harmony?

- A. Competition
- B. Compassion (Dayā)
- C. Aggression
- D. Isolation

Answer: B

19. Rasāyana therapy in social context aims at:

- A. Wealth accumulation
- B. Rejuvenation of body and mind for productive life
- C. Surgical intervention
- D. Population control

Answer: B

20. Overall, the social philosophy of Charaka Saṁhitā supports:

- A. Disease-centered medicine
- B. Community-centered holistic health
- C. Only spiritual liberation
- D. Only pharmacological treatment

Answer: B

MCQs: Concept of Ayu (आयु)

Q1. According to Ayurveda, the term **Ayu** primarily denotes:

- A. Only lifespan
- B. Only physical body

- C. Combination of body, senses, mind and soul
- D. Only mental health

Answer: C

Q2. Which of the following is the **classical definition of Ayu**?

- A. Sharira only
- B. Sharira + Manas
- C. Sharira + Indriya + Satva + Atma
- D. Indriya + Atma only

Answer: C

Q3. The concept of Ayu is mainly described in which classical text?

- A. Sushruta Samhita
- B. Ashtanga Hridaya
- C. Charaka Samhita
- D. Bhavaprakasha

Answer: C

Q4. In Ayurveda, Ayu is classified into how many types?

- A. Two
- B. Three
- C. Four
- D. Five

Answer: B

Q5. Which of the following is **NOT** a type of Ayu?

- A. Hitayu
- B. Sukhayu
- C. Alpayu
- D. Rogayu

Answer: D

Q6. The term **Hitayu** refers to:

- A. Long life
- B. Disease-free life

- C. Life beneficial to self and society
- D. Life with pleasures

Answer: C

Q7. Sukhayu emphasizes:

- A. Moral conduct
- B. Mental peace and physical comfort
- C. Longevity only
- D. Religious life

Answer: B

Q8. Ahitayu is associated with:

- A. Healthy lifestyle
- B. Unwholesome habits
- C. Mental discipline
- D. Balanced Tridosha

Answer: B

Q9. According to Ayurveda, the **ultimate goal of Ayu** is:

- A. Long life
- B. Wealth accumulation
- C. Dharma, Artha, Kama and Moksha
- D. Absence of disease

Answer: C

Q10. Which component of Ayu is responsible for perception?

- A. Atma
- B. Sharira
- C. Indriya
- D. Manas

Answer: C

MCQs: Concept of Health (Swastha)

Q11. The classical definition of **Swastha** is given by:

- A. Charaka
- B. Sushruta
- C. Vagbhata
- D. Kashyapa

Answer: B

Q12. According to Ayurveda, a healthy person has:

- A. Balanced Doshas only
- B. Balanced Dosha, Dhātu, Mala and Agni
- C. Strong body only
- D. Absence of pain

Answer: B

Q13. Which of the following is **NOT** included in Swastha Lakshana?

- A. Samadosha
- B. Samagni
- C. Sama Dhātu
- D. Excessive sleep

Answer: D

Q14. Mental well-being in Swastha is indicated by:

- A. Calm senses
- B. Strong muscles
- C. Balanced digestion
- D. Clear urine

Answer: A

Q15. The term **Prasanna Atma-Indriya-Manah** refers to:

- A. Spiritual ritual
- B. Mental and sensory happiness
- C. Physical fitness
- D. Longevity

Answer: B

MCQs: Concept of Disease (Roga)

Q16. In Ayurveda, disease is primarily caused by:

- A. Germs
- B. Dosha imbalance
- C. Ageing
- D. Genetics

Answer: B

Q17. Which of the following is the **root cause of disease** according to Ayurveda?

- A. Asatmya Indriyarth Samyoga
- B. Prakriti
- C. Agni
- D. Ojas

Answer: A

Q18. Disease manifestation occurs when:

- A. Doshas are in equilibrium
- B. Agni is balanced
- C. Doshas vitiate Dhatus
- D. Mind is calm

Answer: C

Q19. **Roga** is best defined as:

- A. Structural abnormality only
- B. Functional imbalance of Doshas
- C. Mental disturbance only
- D. External injury

Answer: B

Q20. Which stage of disease indicates accumulation of Doshas?

- A. Prasara
- B. Sthanasamshraya
- C. Sanchaya
- D. Vyakti

Answer: C

High-Yield MCQs (NEP–BHU Pattern)

Q21. The aim of Ayurveda regarding health is:

- A. Treatment of disease
- B. Prevention only
- C. Protection of health and cure of disease
- D. Longevity only

Answer: C

Q22. Which factor maintains health according to Ayurveda?

- A. Medicine only
- B. Balanced lifestyle (Ahara–Vihara)
- C. Exercise only
- D. Sleep only

Answer: B

Q23. Disease prevention in Ayurveda is mainly achieved through:

- A. Surgery
- B. Rasayana
- C. Swasthavritta
- D. Chemotherapy

Answer: C

Q24. Which concept connects Ayu with ethics and lifestyle?

- A. Tridosha
- B. Panchamahabhuta
- C. Swasthavritta
- D. Agni

Answer: C

Q25. In NEP-oriented Ayurveda VAC, Ayu emphasizes:

- A. Clinical treatment
- B. Holistic life management
- C. Pharmaceutical focus
- D. Diagnostic tools

Answer: B

MCQs: Introduction to Ayurveda (NEP – BHU)

1. Introduction to Ayurveda

Q1. The word *Ayurveda* is derived from which two Sanskrit words?

- A. Ayu + Veda
- B. Arogya + Veda
- C. Jiva + Shastra
- D. Sharira + Veda

Ans: A

Q2. According to Ayurveda, *Ayu* refers to:

- A. Only physical body
- B. Only lifespan
- C. Combination of body, mind, senses, and soul
- D. Only mental health

Ans: C

Q3. Which text is considered the oldest classical text of Ayurveda?

- A. Sushruta Samhita
- B. Ashtanga Hridaya
- C. Charaka Samhita
- D. Bhela Samhita

Ans: C

Q4. Ayurveda mainly emphasizes:

- A. Treatment of disease only
- B. Prevention and promotion of health
- C. Surgical intervention
- D. Diagnostic technology

Ans: B

Q5. The holistic approach of Ayurveda includes:

- A. Body only
- B. Body and mind
- C. Body, mind, senses, and soul
- D. Physical fitness only

Ans: C

2. Triguna (Sattva, Rajas, Tamas)

Q6. Triguna theory primarily explains the nature of:

- A. Physical body
- B. Digestive fire
- C. Mind and behavior

D. Tissues

Ans: C

Q7. Which Guṇa represents purity, balance, and knowledge?

A. Rajas

B. Tamas

C. Sattva

D. Agni

Ans: C

Q8. Rajas Guṇa is associated with:

A. Stability and clarity

B. Activity and movement

C. Inertia and ignorance

D. Immunity

Ans: B

Q9. Excess of Tamas Guṇa results in:

A. Intelligence

B. Laziness and ignorance

C. Creativity

D. Alertness

Ans: B

Q10. Which Guṇa is dominant during sleep?

A. Sattva

B. Rajas

C. Tamas

D. Vata

Ans: C

3. Tridoṣa Theory (Vāta, Pitta, Kapha)

Q11. Tridoṣa theory is fundamental to understanding:

A. Anatomy

B. Physiology and pathology

C. Surgery

D. Pharmacy

Ans: B

Q12. Which Doṣa is responsible for movement and nervous functions?

A. Kapha

B. Pitta

C. Vata

D. Rakta

Ans: C

Q13. Pitta Doṣa is primarily related to:

- A. Lubrication
- B. Structure
- C. Digestion and metabolism
- D. Stability

Ans: C

Q14. Kapha Doṣa provides:

- A. Heat
- B. Motion
- C. Strength and stability
- D. Excretion

Ans: C

Q15. Imbalance of Tridoṣa leads to:

- A. Health
- B. Longevity
- C. Disease
- D. Immunity

Ans: C

4. Pañcamahābhūta (Five Great Elements)

Q16. Pañcamahābhūta theory states that the universe is composed of:

- A. Three elements
- B. Four elements
- C. Five elements
- D. Seven elements

Ans: C

Q17. Which Mahābhūta is associated with space and sound?

- A. Vayu
- B. Akasha
- C. Tejas
- D. Prithvi

Ans: B

Q18. Fire (Agni/Tejas) Mahābhūta is responsible for:

- A. Solidity
- B. Fluidity
- C. Transformation and digestion
- D. Stability

Ans: C

Q19. Which Mahābhūta dominates Kapha Doṣa?

- A. Agni and Vayu
- B. Akasha and Vayu

- C. Prithvi and Jala
 - D. Tejas and Akasha
- Ans: C**

Q20. Human body is formed according to Ayurveda by:

- A. Triguna
 - B. Tridoṣa
 - C. Pañcamahābhūta
 - D. Śaḍrasa
- Ans: C**
-

5. Śaḍpadārtha (Six Categories of Knowledge)

Q21. Śaḍpadārtha is a concept derived from:

- A. Charaka Samhita
 - B. Nyaya–Vaisheshika philosophy
 - C. Yoga philosophy
 - D. Sankhya philosophy
- Ans: B**

Q22. How many Padārthas are included in Śaḍpadārtha?

- A. Five
 - B. Six
 - C. Seven
 - D. Eight
- Ans: B**

Q23. Which of the following is NOT a Padārtha?

- A. Dravya
 - B. Guṇa
 - C. Karma
 - D. Doṣa
- Ans: D**

Q24. *Dravya* refers to:

- A. Quality
 - B. Action
 - C. Substance
 - D. Universality
- Ans: C**

Q25. *Samavāya* denotes:

- A. Separation
 - B. Inherence
 - C. Non-existence
 - D. Motion
- Ans: B**

6. Application-Based MCQs (NEP Orientation)

Q26. Balanced Trigūṇa state promotes:

- A. Mental illness
- B. Ethical and healthy life
- C. Physical weakness
- D. Disease

Ans: B

Q27. Ayurveda considers health as:

- A. Absence of disease
- B. Balance of Doṣa, Dhātu, Mala, and Agni
- C. Physical fitness only
- D. Mental peace only

Ans: B

Q28. Pañcamahābhūta theory helps in understanding:

- A. Drug action
- B. Body constitution
- C. Disease causation
- D. All of the above

Ans: D

Q29. Śaḍpadārtha is mainly useful in Ayurveda for:

- A. Diagnosis
- B. Understanding drug properties
- C. Philosophical foundation
- D. All of the above

Ans: D

Q30. The NEP-oriented VAC Ayurveda course mainly aims at:

- A. Professional medical training
- B. Value education and health awareness
- C. Surgical skills
- D. Research specialization

Ans: B

MCQs: Historical Background of Ayurveda

1. The origin of Ayurveda is traditionally believed to be from:

- A. Charaka
- B. Sushruta
- C. Dhanvantari
- D. Atreya

Answer: C. Dhanvantari

2. Ayurveda is considered a:

- A. Upaveda of Atharvaveda
- B. Upaveda of Rigveda
- C. Vedanga of Samaveda
- D. Smriti text

Answer: A. Upaveda of Atharvaveda

3. Which period is known as the Vedic period of Ayurveda?

- A. 600 BCE – 200 BCE
- B. 1500 BCE – 500 BCE
- C. 200 BCE – 600 CE
- D. Post-Gupta period

Answer: B. 1500 BCE – 500 BCE

4. The earliest references to disease and healing are found in:

- A. Rigveda
- B. Yajurveda
- C. Samaveda
- D. Atharvaveda

Answer: D. Atharvaveda

5. The systematization of Ayurveda occurred mainly during the:

- A. Vedic period
- B. Epic period
- C. Samhita period
- D. Medieval period

Answer: C. Samhita period

6. Charaka Samhita primarily deals with:

- A. Surgery
- B. Toxicology
- C. Medicine (Kayachikitsa)
- D. Pediatrics

Answer: C. Medicine (Kayachikitsa)
