- A. Vāta
- B. Pitta
- C. Kapha
- D. Mala

Answer: B

9. Kapha Doṣa mainly provides:

- A. Motion
- B. Heat
- C. Stability and strength
- D. Excretion

Answer: C

10. The imbalance of Tridoṣa leads to:

- A. Longevity
- B. Immunity

- C. Disease
- D. Youthfulness

Answer: C

C. Dhātu (Body Tissues)

11. The total number of Dhātus described in Ayurveda is:

- A. Five
- B. Six
- C. Seven
- D. Eight

Answer: C

12. Which Dhātu is responsible for nourishment of the body?

- A. Rakta
- B. Rasa
- C. Māṃsa
- D. Asthi

Answer: B

13. Which Dhātu provides strength and structure to the body?

- A. Meda
- B. Māṃsa
- C. Asthi
- D. Majjā

Answer: B

14. The Dhātu related to bone formation is:

- A. Rakta
- B. Asthi
- C. Meda
- D. Majjā

Answer: B

15. Śukra Dhātu is mainly associated with:

- A. Digestion
- B. Immunity
- C. Reproduction and vitality
- D. Circulation

Answer: C

D. Mala (Waste Products)

16. Malas are primarily responsible for:

- A. Nutrition
- B. Growth
- C. Elimination of waste
- D. Energy production

Answer: C

17. Which of the following is NOT considered a Mala?

- A. Purīṣa (faeces)
- B. Mutra (urine)
- C. Sveda (sweat)
- D. Rakta

Answer: D

18. Proper elimination of Malas results in:

- A. Disease
- B. Weakness
- C. Maintenance of health
- D. Tissue degeneration

Answer: C

E. Concept of Agni

19. Agni in Ayurveda signifies:

- A. Fire element only
- B. Digestive and metabolic power
- C. Heat of the body
- D. Appetite only

Answer: B

20. How many main types of Agni are described in Ayurveda?

- A. One
- B. Three
- C. Seven
- D. Thirteen

Answer: D

21. Jatharagni is mainly concerned with:

- A. Tissue formation
- B. Cellular metabolism
- C. Digestion of food
- D. Elimination of waste

Answer: C

22. Impaired Agni leads to:

- A. Proper digestion
- B. Formation of Ojas
- C. Formation of Ama
- D. Balanced Doṣa

Answer: C

F. Concept of Prakṛti

23. Prakṛti refers to:

- A. Temporary disease condition
- B. Mental disorder
- C. Individual constitution
- D. Seasonal variation

Answer: C

24. Prakṛti is determined at the time of:

- A. Birth
- B. Childhood

- C. Adolescence
- D. Old age

Answer: A

25. Which of the following is a type of Prakṛti?

- A. Sama Prakṛti
- B. Tridoṣaja Prakṛti
- C. Rogaja Prakṛti
- D. Agniya Prakṛti

Answer: B

26. Knowledge of Prakṛti is useful in Ayurveda for:

- A. Surgery
- B. Personalized diet and lifestyle
- C. Chemical analysis
- D. Laboratory diagnosis

Answer: B

MCQs: Concept of Health & Longevity, Healthy Lifestyle, Conduct and Ethics (Ayurveda)
